

ABOUT US

Constituent Services Worldwide (CSW) is a multi-faceted Public Benefit Corporation designed to be a catalyst for government initiatives and resource for private sector clients. CSW humbly began in 2011 following the two-term administration of Commissioner Dr. Robert Jordan. After serving as an unpaid elected official in Ward 7 of the District of Columbia, CSW emerged and began developing award-winning programs recognized for implementing full lifecycle and vertically integrated solutions. Over the past nine (9) years, CSW has blossomed into an organization with past performance supporting government and small business initiatives requiring financial services, education (youth, adult, business professional, and distance), cyber security, management consulting, social services, green infrastructure and workforce development. The diversity of our projects is achievable from three (3) core capabilities. First, CSW understands the overarching goals of our government partners from elected official and federal contracting experience. Second, CSW is a licensed post-secondary education institution with a 30,000 sq. ft. campus and distance learning capabilities. Third, our C-Suite staff is comprised of former executives and directors of Fortune 100 and 500 corporations, Big 4 consulting firms, doctorates from academia, and graduates of our training programs.

Organizational Development:  Combining Business and Education Solutions enables CSW to provide corporate strategy, train-the-trainer sessions, executive coaching, and customized trainings grounded in prevailing research for both public and private sector clients.

Career Pathways:  Combining our Education Solutions with Government Solutions enables CSW to engineer pathways leading to credential attainment and employment.

Job Creation:  Combining both our Government and Business Solution Capabilities enables CSW to win contracts, promote entrepreneurship and launch businesses staffed directly from the target populations trained by CSW.
